### PROFILE INFO

Dr. Amy Burns is a highly experienced Consultant Clinical Neuropsychologist. Amy has worked in the NHS for over 25 years and has significant experience of working with people with a range of neurological conditions, in acute, outpatient, and community settings.

Alongside her NHS role, Amy has also worked in private practice since 2020.

Amy's extensive experience includes delivering assessment and rehabilitation for individuals with acquired and traumatic brain injury and neurological conditions, both individually and working with teams.

Amy's special interests are in client and staff wellbeing, working with staff groups and families, and providing rehabilitation in the outdoors. This includes using a range of therapeutic models including Cognitive Behavioural Therapy (CBT) and Acceptance and Commitment Therapy (ACT).

Amy also has expertise in supporting people who have experienced traumatic events, she is a qualified Eye Movement Desensitisation and Reprocessing (EMDR) therapist.

Amy is listed on the BPS Specialist Register of Clinical Neuropsychologists, as well as being an Associate Fellow of the British Psychological Society.

Amy is an experienced clinical supervisor and is on the Register for Applied Psychology Practice Supervisors (British Psychological Society) with extensive experience of supervising Clinical Psychology trainees and other professionals.
